

- Job Title: **Medical Writer**
- Reporting to: Medical Director/Scientific Lead
- Team: Medical

About the job

emotive are looking for exceptional Medical Writers to join our core client 'POD' teams. Working under the supervision of a Principal Medical Writer, you will be part of a dedicated 'POD' resource team of Client Services and Medical Writers who together are responsible for agile working for a defined cluster of our Global and UK clients across Rare Diseases, Oncology, Retina, Virology, Renal and Neurology including Advanced Gene & Cell Therapies. You will be asked to develop engaging and accurately referenced copy on a wide range of medical affairs, patient, med ed and commercial/brand materials. Working with your colleagues and alongside our senior Medical and Brand strategists and our shared Creative and Technology services, you will have an active opportunity to provide scientific input into pitches and RfP responses with both new and existing clients. As part of this highly autonomous 'POD' team and within a broader collaborative agency environment, you will have a direct and visible impact on the work we are doing and also a key voice in all major decision making.

KEY RESPONSIBILITIES

- Research, craft and write engaging, accurate and fully referenced copy for POD clients.
- Develop copy for a range of different media including both traditional forms such as slide decks, posters and meetings materials as well as for digital applications, web-based projects and film/animation storyboards.
- Become an in-house therapy area expert within at least one disease area.
- Add value in the development and delivery of proposals for new business and with existing POD clients.
- Attend client and thought-leader/KOL/faculty meetings and video conferences, participating on the content discussions where required
- Work collaboratively work with the creative and technology shared services teams to produce high-quality medical communications

REQUIRED KNOWLEDGE, SKILLS AND ABILITIES

- A minimum of 2 years as a medical writer with experience within a medical communications setting, either within an agency, client or clinical environment
- Educated to MSc or PhD in life sciences or related subject
- Excellent attention to detail and ability to work simultaneously on more than one project
- Creative thinking with the ability to provide input into realistic scientific communication concepts for projects which deliver on client's objectives
- The skills to write accurately and creatively in a dynamic and collaborative agency environment
- Ability to establish and maintain effective working relationships with co-workers, managers and clients.

OUR REWARDS

- 33 days including bank holidays + 3 days off for Christmas + Birthday day off + buying options
- 4-day flex (work remotely 4 days a week) - will move to 5 flex days from 2022 and fully remote working is also open to discussion earlier
- 6 weeks paid sabbatical after 5 years' service

-
- Subsidised gym membership
 - Private medical insurance
 - Pension (5% employer contribution)
 - Annual personal learning budget
 - Perkbox and Perkbox Medical
 - Support and wellbeing services
 - Flu Jab
 - Eye Tests
 - Bike2work

We look forward to hearing from you!
